

NAMEPLATE INSTALLATION INSTRUCTIONS

1. Place the nameplate on the collar in the location you would like to install it.
2. Mark the nameplate rivet hole positions.
3. Punch holes in the collar where you made the nameplate hole marks with a leather punch, hammer and punch, or drill.
4. Push the rivet posts through the holes in the collar and nameplate holes from the backside of the collar.
5. Tap the rivet caps onto the rivet posts with a hammer until the caps flatten.
6. That's it...You're done!
